

EDITORIALS

CARMEL READY FOR
CARRIER DELIVERY
OF MAIL

It is increasingly evident since the postoffice is in its new location at the upper end of Ocean avenue that Carmel has far outgrown present facilities for the handling of mail and that the only real solution of the question is carrier delivery.

It is not a new question at that. It has been popping up at frequent intervals and for reasons that are mainly sentimental or vague, carrier delivery is one of those things that Carmel has let drift along. Now with the circulation of petitions asking the postal department to provide the carrier system we are entitled to it looks very much like definite action will be taken.

There is not a reason in the world why Carmel should not have carrier delivery and scores of sound arguments why it should. The town is much too large to be served from a centrally located postoffice and now that the new location is so far from the business and population center of Carmel it is manifestly working a hardship on about seventy five per-cent. of the businesses and patrons of the office.

And the actual question of service at the new location is no small matter. It is almost impossible to find parking space in the new location and once inside the building, which is much smaller than the old one, getting mail is a wild scramble through a mass of dogs and humanity so that the oft mentioned "poetic simplicity of going for the mail in Carmel" has grown to be about as "poetically simple" as an old time, free for all, bar-room brawl.

THE REQUIREMENTS
FOR CARRIER DELIVERY

The requirements for carrier delivery are simple and DO NOT require cement sidewalks and street crossings as opponents to carrier delivery claim. Postal regulations require that the walks must be passable at all times of the year, of gravel, cinders, cement or other material. The walks must be continuous along each block which might require some simple changes. The streets must be posted and the houses numbered. Since the streets are already posted and the property all numbered at the city hall it is a simple and inexpensive matter for residents to put their numbers on their homes. There is no expense attached to carrier delivery and such is ready and waiting for Carmel if the people ask for it which it now seems likely they are going to do. After all there is nothing compulsory to the patrons about carrier delivery. Those who insist on the postoffice can still get their mail there just as long as there is a postoffice.

POSTAL EMPLOYEES
DESERVE PRAISE

A great deal of credit is due Mrs. Cator, the postmistress, and Mr. Nye, assistant, and every clerk in the postoffice for their fine and efficient work in moving to the new quarters. There have been no complaints about mis-handling of the mail, the service has been reasonably prompt and in spite of the "madding crowd" in the cramped lobby of the office all trying to work the combinations of their boxes at once, all employees "kept sweet" and made every effort to give the utmost in service.

The chaotic conditions of the past few days will of course be simplified when patrons get the best of their combinations but

there is no disputing the fact getting your mail is going to be an embarrassment since the aisleway in the box section is so narrow it is impossible for a short, thin person to stoop over without entirely blocking the passageway. What happens when some of the larger, and portly patrons bend over is yet another question.

JUST A NEW
AMERICAN CUSTOM

With all the talk by Citizens Committee members being boycotted by the Epic club members, and equally as much talk by Epic club members of being boycotted by the members of the Citizens committee, one begins to wonder at the breaking down of the laws of this country against boycott. That is, one might wonder until light breaks on him that the federal government is setting the style. What with having refused to buy from the Ford plant, (fulfilling all NRA conditions) because they did not sign on the dotted line, and now preparing a plan to call on all citizens of the United States to trade only with those flying the blue eagle, the custom seems to have become national. Why should a little spot like Carmel worry? And what's a law between friends?

SINCLAIR SUPPORTERS
AND POLITICS

Upton Sinclair has enlisted under his Epic program hundreds of tireless workers, many of whom are naturally, and justly, interested in something more direct than the general operation of the Epic program. In short many of the workers will expect recognition and jobs, if and when Upton Sinclair becomes governor.

Some will get jobs but many more expecting them will be disappointed. Politics is a profession, a business and a racket all rolled into one and it takes an extremely astute and experienced person to get even due recognition, not to mention to make the racket pay.

Those who plan on asking Mr. Sinclair for something after he is elected must remember that Mr. Sinclair is a shrewd politician and when elected must conform to certain procedure, much of which is fixed by law and that which is not, by other means just as effective.

Job hunters working hard for Mr. Sinclair are going to have to learn some of the finer points of politics and notably what the Democratic Central Committee is and who the County Chairman Argyll Campbell is and how effectively this organization can put a crimp in the schemes of patronage seekers.

MORE ABOUT
PROPOSED CITY PARK

With the question of the city hall brought before the people, the citizens are just realizing that the upkeep of the city park costs the taxpayers \$2100. per year. A tidy little sum, but it is a tidy little park. With the location of a city hall at the west end of the park, the expense of keeping up the park would be combined with the expense of keeping up the city hall, and the citizens would be getting some return for their outlay.

The San is informed that by a vote of four-fifths of the council the park grounds may legally be used for the new hall site. Such vote has already been received. It will hardly be necessary for the people to set aside by "referendum or by protest" as suggested editorially last week in a Carmel paper, the action of the city council in designating the park. If the people themselves

do not want the city hall located on Block 69 they will merely have to mark NO on their ballot.

"Spirited opposition" will undoubtedly develop to the plan, but since the Carmelites themselves will be the ones to decide, the majority will rule.

Those who fear the new building will be an "eyesore" have only to take a look at the plans, which may be seen in the window of Thoburn's Realty office. With such a unique structure, Carmel will still be "different." As different as she now is with meeting in a small, inadequate fire-trap, where the councilmen and their visitors take their lives in their hands everytime they attend a meeting.

The full facts will be put before the people before the bond election, showing how the taxes will be either increased or decreased. The Sun knows of no one in the city who is at all interested in "putting anything over" on the people. They must make the decision.

THE ANONYMOUS
LETTER EPIDEMIC.

A speaker at the Sinclair meeting Monday night was no little annoyed because a member of the Epic club had received an anonymous letter and after reading the letter made the emphatic and rash statement that there would be no more anonymous letters because the postal authorities had been sent this letter, etc. Being new in public life the speaker as well as other workers in the Epic club must learn that the anonymous letter is something everyone in the public eye must tolerate. The practice will not be stopped because it is impossible and not worth the effort even if postal authorities had the facilities to run down all the writers of "crank" letters. The world is full of foolish and cowardly people who write what they are too yellow to speak.

And members of the Epic club must not for a minute think they are the only targets for unsigned letters and than none of their own followers would stoop to the despicable practice for we reprint, with the writer's quaint spelling, capitalization, etc., a letter received this week by the editor of the Sun which quite evidently is from an admirer of Mr. Sinclair.

August 30, 1934
Carmel Sun:
To Whome It May Concern:
I was reading your articles this am Your way of Slinging Mud. I am convinced you are no GENTLEMAN Do unto others You dont no A thing about it Your Education if any was sadly neglected I am sorry for you Judge Not you never heard of such And trust if Sinclair is coming Then he will see the folly of his ways He that is without Fault let him THROW the first stone
Sincerely
A Gentleman Try It.

Editors receive scores and at times hundreds of these letters. They are from harmless and ignorant people who get some form of satisfaction from the practice. Just what it is difficult to understand.

One recent letter took us to task for favoring the bonus for Spanish War veterans. (Which was news to us.) The contents and character of the writing showed a person of upset mentalities.

STUDENTS MAY RECEIVE
FREE RIDES TO SALINAS

Students from Carmel and vicinity who are attending Junior college in Salinas may be able to go by bus, if present plans are carried out.

At a meeting held this week to discuss the subject of free transportation the Bay Rapid Transit company offered to operate a bus at the rate of \$5 per student. If free transportation is decided upon, service will begin next week, in all probability.

PEGGY CONVERSE IS
SAN FRANCISCO'S IDOL

SAN FRANCISCO—Audiences have become Converse-conscious largely due to the throbbing rendition of "Tavern in the Town," by Peggy Converse in "The Drunkard," at the Palace Hotel. Peggy is splendid in her role of the tearful heroine, but it is the singing of this old ditty that has captivated the public. The audience awaits that song eagerly each evening and when Peggy waves her hand and goes through the gestures of the song the whole audience follows her.

Ta-ra-ra-boom-di-ay also gets its share of applause. Peg as the girl who is "not to good, but not too bad," wishes her bustling skirts from one end of the stage to the other and captivates the audience immediately with her charming manner. — Tuesday Examiner.

HIGH SCHOOL BOY
INJURED IN AUTO

Joe DeAmara, 16-year-old high school boy, narrowly escaped with his life last Tuesday when he was hit by a motorist in Carmel Woods at the Sheridan corner.

Joe had alighted from a school bus, and crossed in front of the bus to get to his side of the street. A car belonging to the Puritan Meats company hit him and knocked him to the pavement, bruising him severely and breaking his nose. He was unconscious for several hours. The car passed two standing school busses, according to witnesses.

ARGYLL CAMPBELL HEAD
COUNTY CENTRAL COM.

Argyll Campbell of Carmel is the new chairman of the Democratic county central committee, elected this week at Salinas. Other officers are J. T. Harrington, Salinas, vice president; Emmet McMenamin, of Monterey, secretary, and Ray Shellose, of Salinas, treasurer.

Nothing definite was done by the committee toward endorsing Upton Sinclair as the party nominee, the members deciding to wait until the state convention, September 20 at Sacramento. J. A. Bardin of Salinas and Carmel Martin of Monterey, both avowedly anti-Sinclair were chosen as delegates.

CHARLOTTE MORGAN TO
TEACH GENERAL ART

The class for adults in general art under the supervision of the Monterey Union high school, will be reopened on September 18th in the art room of the Carmel Sunset grammar school. The class will be conducted on Tuesday nights from 7:30 to 9:30 o'clock. The opening instruction offered will be in free-hand, still life and costumed figure; lettering and pen and ink technique. Instruction is free. The materials, which are simple, must be provided by the students. For details, meet at the school, or telephone Mrs. Morgan at 721-J, or write her Box M, Carmel.

The instructor, Mrs. Charlotte E. Morgan was trained at the San Francisco Institute of Art. Some of her teachers have been, Amadee Joulain, Emil Carlson and Arthur Mathews. In 1928 she received her M. A. in art from the University of California. She holds a regular secondary certificate and has taught six years in high schools in California.

Mrs. Joseph Hitecock, Sr., Mission avenue between Seventh and Eighth is quite ill.

FOR RENT

For rent 2 rooms (bedrooms and living room) and garage. Together or separately. Rent reasonable. Box 1511, Carmel.

DENNY-WATROUS WILL
MOVE TO SAN CARLOS

Beginning their moving tomorrow, the Denny-Watrous gallery will soon be located in the old Mansanita theatre building on San Carlos, near Ocean, now occupied by the Pine Cone, the latter to be moved to the building now occupied by Denny-Watrous on Dolores.

It will be a gala night at the gallery October 1 when the opening program is given. Details are not ready to be given out yet, but Miss Denny promises something worth while.

A beautiful new curtain for the ample stage has been purchased as well as fifty additional comfortable chairs for patrons.

One of the best features of their new location is the matter of exits, according to the Misses Denny and Watrous. The building formerly used as a theatre is well provided with exits which may be used in case of fire or panic of any kind.

The furniture of the gallery has just received a new coat of white enamel and the proprietors plan to have everything very attractive in a short time.

NEW POSTOFFICE OPENED
TO PUBLIC MONDAY

The public was allowed to get their mail at the new postoffice on Mission and Ocean Monday—if they could.

So great has been the demand for help that the officials have had scarcely no opportunity for doing office work during office hours, and they are all pretty well worn out with the strain.

Old people and others whose eyesight is not good may have to follow the example of one patron who took a tube of white paint and painted the dial on his box at its stopping places.

When two persons on opposite sides stoop to get their mail, the passageway is almost completely blocked.

The heavy door even added to the discomfort Tuesday when it swung against a young lady and almost floored her.

EVENING SHOP CLASSES
AT SUNSET SCHOOL

The evening shop class at Sunset school will open its doors, on Monday, September 17, at 7:00. Woodwork of elementary and advanced types in individual projects. Pottery from the elementary stages to duplicate cast work and glaze mixing. This evening shop class has enjoyed five years of interesting activity and welcomes the opportunity of serving the newcomers and old friends. Visitors are welcome. Ernest R. Calley is the instructor.

Miss Virginia Lee Schulte, one of the interesting young people of Carmel Valley, will leave soon for her Junior year at Oregon State, located at Corvallis.

Mr. and Mrs. R. G. Barron and little daughter of Seattle visited the first part of the week with Mr. Barron's aunt, Mrs. Ed Warner on Mission. They will probably spend the winter in Salinas as they are seeking a change of climate for the child and have placed her under the care of a specialist in that city.

Mrs. O. W. Bardarson and two children have returned home after spending a month in Seattle. Mrs. Bardarson visited her parents, Mr. and Mrs. John Dofson. Mr. Bardarson accompanied his family on their trip but on account of business matters, was compelled to return home after two weeks.

A young son has arrived at the home of Mr. and Mrs. Chester C. Grindstaff of Carmel Valley. The boy weighed nearly nine pounds.

As the Sun goes to press word is received that Mrs. Sam Powers is not expected to live through the night.

BURNING MOTOR CAUSES
DAMAGE AT MIKEL'S

The motor completely burned up and several proprietors and clerks are suffering bruises and irritated throats, as a result of some fault in the big ice box in the grocery department in Mikel's store in Del Monte avenue east of Monterey.

Residents in the apartments over the store were awakened by smoke in the night Wednesday. They quickly aroused everyone in the building and phoned for the fire department as well as for the clerk in Pacific Grove who had the key to the store. Louis Arnone, proprietor of the drug store adjoining, went into his building, and broke down the iron grilling between the two stores. The room was dense with smoke and the floor had been oiled after closing hours. The investigators began to slip and fall. On account of the smoke they could not find the light switch and when the firemen arrived they upset many bottles of relishes, etc., which were on display. Only the motor was on fire but the blaze was running two or three feet high.

OCT. 29 OPENING DATE
CARMEL MUSIC SOCIETY

With the Don Cossack male chorus of 36 people to entertain, the winter season of the Carmel Music society will be opened, Monday, October 29.

The other three programs are still under negotiation. Plans for the coming series were laid at a meeting at the home of Dr. Koehler in Carmel Highlands Monday night.

Carmel people look forward with pleasant anticipation to the winter programs and the society has promised that some exceptional things will be heard this year.

Officers of the Music Society for the following year were elected as follows: president, Dr. R. A. Koehler; first vice-president, Mrs. Paul Flanders; second vice-president Mr. Frank Wickman; third vice-president, Miss Emily Pitkin; recording secretary, Mrs. Mary Marble; treasurer, Mr. Hurd Comstock.

Mrs. Preston who has conducted the Mission Linen Store here this summer on Dolores street, left this week for Glendale to spend the winter. Mrs. Preston is merely leaving for the winter and will return next summer to make her home here permanently.

Dan Chew and Gordon Campbell have returned home from a very pleasant trip to Portland, Ore., where Dan visited his mother.

Mr. and Mrs. P. A. McCreery had as their guests over the week-end, Mr. and Mrs. E. V. Chevalier and son, Robert, of Palo Alto.

ADULT EDUCATION TO
BE CARRIED ON HERE

Carmel people interested in advancement will be delighted to learn that the free classes will again be resumed this winter under the Monterey Union High school, when through state funds, teachers will be provided for many interesting subjects.

Students are eligible between the ages of 18 and 80. Classes will open Monday, Sept. 17. L. E. Wormley will be in charge of the district.

Recreational
Physical education for women. Reducing exercises, games, relays, baseball, basketball. Classes start Tuesday, September 18. Time 7:30 to 9:30 p. m. Mrs. Ann B. Uzzell, instructor.
Physical education for men. Gymnastics, Volley Ball, games, basketball. Classes start Monday, September 17. Time 7:30 to 9:30 p. m.; Ernie Perkins in charge.

The Arts
Life class. Studies of living models. Continuation of the successful work of the past year. New registration on Monday. Classes meet Monday and Friday. Clay Otto, instructor.
General art. The opening instruction offered will be in free hand, still life and costumed figure; lettering and pen and ink technique. Classes start on Tuesday, September 18. Time 7:30 to 9:30 p. m. Mrs. Charlotte E. Morgan, instructor.

Language
French. Elementary and advanced studies in French. Conversation. Classes start on Monday, September 17. Time 7:30 to 9:30 p. m.; Mrs. Jeanne Pirene, instructor.

Shop Class
Woodworking and Pottery. Woodwork. Hobbies and elementary carving. Hand-formed and cast pottery of various types. Glazing and kiln work. Classes start on Monday, September 17. Time 7:00 to 9:00 p. m. Ernest R. Calley, instructor.

If you do not find what you want in Carmel's program, you may find it in some of the following classes to which you are equally welcome:
Millinery and dressmaking. Monterey high school, evenings to be arranged.
Arts and crafts, East Monterey at Seaside school, Miss Vander Greind, teacher.

Evening orchestra—East Monterey Grammar, Mr. Cosmey, teacher.
General recreational and game center, Monterey, Mrs. Watson, Mr. Verdooni, teachers.
Weaving and linoleum block carving, East Monterey, Seaside school.

Typing and shorthand, Monterey, Miss Lorentzen teacher.

Bookkeeping, Monterey, Mr. Setais, teacher.

Italian, Monterey, Mr. Giglio, teacher.

Avocations for adults, Monterey, Mr. Frisbee, teacher.

Woodworking and cabinet making, Monterey, Mr. Mosher, teacher.

CHRISTIAN SCIENCE

CHURCHES

"Substance" will be the subject of the Lesson-Sermon, Sunday, September 16, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist in Boston, Mass.

The Golden Text will be: "My God shall supply all your needs according to his riches in glory by Christ Jesus" (Phil. 4:19). Other Bible citations will include "Now faith is the substance of things hoped for, the evidence of things not seen. Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear" (Heb. 11:1, 3).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Question. — What is substance? Answer. Substance is that which is eternal and incapable of discord and decay. Truth, Life and Love are substance, as the Scriptures use this word in Hebrews: 'The substance of things hoped for, the evidence of things not seen.'"

GREASE THE GREASE GUN

The leather plunger on the grease gun sometimes gets stiff from a lack of lubricant, reminds L. G. Evans, director of roadside service of an automobile club. A little grease rubbed on the plunger in such a condition will restore it to normal.

SOLEDAD MISSION

TO CELEBRATE SOON

Lovers of the California Missions will be glad to hear that the almost forgotten Mission of Our Lady of Soledad is stepping in line with all the other California Missions to celebrate the 150th anniversary of the death of Junipero Serra. The Mission is located about four miles West of the city of Soledad. A mass of ruins is all that is left of the once glorious mission. However tragic and sad these ruins may appear they tell a great story and ought to be saved to the future.

More than any other Mission they plead for preservation and restoration. When Father Lassen founded the Mission on October 9th, 1791 in honor of Nuestra Senora Dolorisissima de La Soledad he planted a large Cross in the center to mark the site.

On Sept. 16th, Sunday following the Feast of the Sorrowful Mother a twenty-foot-high Cross will again be erected in the center of the ruins to mark the opening of a Restoration Program for the Soledad Mission. Father Wand, Franciscan Father of San Miguel Mission, will bless the Cross and give the sermon of the occasion. The Knights of Columbus are donating a flag which will be raised above the ruins.

An open air mass will be celebrated during which the children of Greenfield and Soledad will do the singing and the band of the Gonzales high school will play selected pieces closing with the Star Spangled Banner at the raising of the flag. The Knights of Columbus and the Italian Catholic Federation will stand as guard of honor around the cross and the flag.

The Monterey Accordion club has prepared a barbecue and an afternoon of entertainment in the Soledad park. Net proceeds of the barbecue will go toward the restoration of the Mission. The services at the Old Mission will start at 10:00 a.m., Sunday, September 16th and visitors are asked to be there at 9:45 in order to get parking places.

Many Carmel people will undoubtedly attend the celebration.

Harriet Beecher Stowe

Harriet Beecher Stowe, author of "Uncle Tom's Cabin," was brought up in an atmosphere which tended to develop the attitude of mind revealed in the pages of this remarkable book. She was the sixth child of Rev. Lyman Beecher, a New England preacher and abolitionist who was wont to appeal to heaven to help "poor, oppressed, bleeding Africa, that the time of deliverance might come."

Blizzards Here and There

Blizzards, late snows and snow-laden, are outstanding events of winter in the northern interior of North America, but our continent has no monopoly of them. The most terrific blizzards on earth are doubtless those that rage on the border of Antarctica, while Russia, where blizzards are common, burns or purges, is able to match the worst American experiences.

Pronounced "Veen"

Wien is the official name of the capital of Austria, and the word is pronounced "veen." Austrians, unless they are versed in foreign practices, know nothing of Vienna. Therefore the capital of that republic is printed Wien (Vienna). Likewise we find Istanbul (Constantinople) and many others.

Bandits in China

Within the last few years the province of Shantung, China, was so overrun with brigands that the people were driven to surround their villages with thick barbed wire—and fire a gun off at intervals throughout the night, intimating that a watch was being kept and resistance would be offered.

The Word "Bankrupt"

The word bankrupt means bench. The Lombards, who introduced banking into England, used benches erected in the market place for the exchange of money. When one of these money lenders failed, his bank or bench was broken up or disrupted, originating the word bankrupt.

Speed of a Wheel

With respect to the center of the wheel, all parts of the outside wheel travel at the same rate. In relation to the road, the highest point of the wheel is moving forward twice as fast as the center of the wheel, while the lowest point of the wheel momentarily stops.

Orient Torn by Wars

Until comparatively recent times bloody wars always waged between the various states in India, the various states within China and between the Burmese and the Siamese in the Far East.

NATION FACES CRISIS:

MUST STAND TOGETHER

The State and Nation today face a crisis. Into our midst has come a group of people who would substitute license for liberty, who seek to stir up class, mass and racial hatred. Many of these agitators are aliens, enjoying advantages and privileges in this nation that are not to be found elsewhere. They seek to overthrow our government by force and violence.

This group well-financed, well-organized, capably directed, by propaganda and insidious rumor seek to destroy the confidence of the American people in every institution and organization that stand between them and their purpose.

Into the ranks of every legitimate organization the have or are attempting to infiltrate, and through acts of violence, intimidation, insolent statements, vicious tactics to bring discredit upon the very organizations that have received them and bid them welcome. The American Legion, the American Federation of Labor, the churches, the farmer, the business man, the mechanic, the banker, each and every group, class and creed, they seek to array against the other. Law enforcement officers and agencies are painted in vivid rumors, pamphlets, stories, as brutal, bloodthirsty individuals and groups who seek but an opportunity to punish.

To array group against group, class against class, organization against organization, individual against individual to the end that chaos may reign and there shall be no confidence, no cooperation and no respect is their object. They seek but to promote strife and hatred so that a nation divided against itself will fall.

California agriculture is particularly vulnerable. Its crops must be harvested when ripe or they are a total loss. Crops once harvested must be marketed or preserved or they are a total loss. Other disturbances are planned. Oil, railroads, general industry—every American must stand four square in the fight to eliminate this menace. Dissension, criticism, antagonism must not be permitted. From the membership of every organization in this state must be purged the red radical who brings only the desire to create dissension.

The esprit de corps of the American Legion has carried it ever forward. Honest criticism is always justified but when from within the membership there springs criticism that basically seeks to take advantage of any incident, however trivial, in order to further the political ambitions of groups or individuals, the membership as a whole must analyze the situation honestly and thoughtfully so that into our ranks there will not creep dissension, disorganization, and thus, innocently or directly, array within our Legion, group against group, man against man, so that our solid front is torn asunder and the purpose of the red radical accomplished.

To those who seek from within our midst to stir up strife and antagonism, the words of the preamble to the constitution of the American Legion are directed:

For God and country, we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a one hundred per cent Americanism; to preserve the memories and incidents of our association in the great war; to inculcate a sense of individual obligation to the community, state and nation; to combat the autocracy of both the classes and the masses to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.

GUERNSEY FRAZER

Past Commander 91st Div., A. E. F. Post, Past Adjutant, L. A. County Council, The American Legion. Credited to California Legionnaire and Associated Farmers of California.

Mr. and Mrs. J. M. McGrady and little daughter, Ellen Pearl, have gone to Arizona for a two weeks' vacation. They will spend a part of their time at the Grand Canyon.

Sight of Benares is Sacred

The city of Benares is esteemed so holy in India that even the view of it is holy—the very sight of the town is sacred and but to look at it is an act of communion with the gods.

Broom Symbol of Victory

When the Dutch commander, Admiral von Trump, scattered the English fleet in the year 1652, he hoisted a broom to his masthead to signify he had swept the channel clear.

Bell Multi-toned

A perfectly tuned bell, when properly struck, gives off not one tone but a chord of five distinct notes. In some bells, trained ears can recognize as many as 13 tones.

Belted Stars Fixed

For centuries the basis for all astronomical theories was the fact that the outer sky was solid and crystalline and the stars fixed to its surface like studs.

Mrs. M. C. Chapin of Carmelo street returned this week from a visit in San Francisco and Burlingame.

The Garden of Eden

On the supposition that the narrative in Genesis describes a real country, any number of efforts have been made to establish the location of the Garden of Eden, and many books have been written on the subject, often widely disagreeing. Some have located Eden near the town of Kurnah, in southern Babylonia, not far from the Persian gulf. This is at the junction of the Tigris and Euphrates rivers. In what is now the British mandatory kingdom of Iraq. Others have placed the garden in Armenia, near the source of these rivers. The region near Damascus, in Syria, has also been suggested; and some extremists have argued that it was in America, or Australia, or at the North pole. The general opinion is that the description in the second chapter of Genesis refers to southern Babylonia.

The highest church steeple in the world is in Ulm, Germany. It is 528 feet high and dates from the Middle Ages.

Victoria Falls Dwarf Niagara
Victoria Falls, in Africa, is more than two and a half times as high as Niagara.

SAFEST TIRES IN THE WORLD!

PRICES REMARKABLY LOW!

Here's PROOF of SAFETY

TWO BREATH-TAKING ENDURANCE RUNS LAST WEEK ON SAME TRACK—A DRAMATIC COMPARISON OF SAFETY! READ BOTH LETTERS!

Ab Jenkins praises Firestone tires in toughest endurance run he ever made

Lake Bonneville, Utah
Aug. 16th, 1934

Mr. Harvey S. Firestone, Chairman,
Firestone Tire & Rubber Company,
Akron, Ohio

Dear Mr. Firestone:

Under A.A.A. supervision, I have just completed a 3,000-mile run on the hot salt desert at Lake Bonneville, Utah, averaging 127.8 miles per hour, breaking 77 Speed Records—without any tire trouble. Firestone tires gave an almost unbelievable performance, with temperatures as high as 120 degrees.

Last year I made a similar run with a car of less power and speed using tires of another make whose national advertising featured blowout protection. Yet I had a blowout and made a number of tire changes.

This year I also used Firestone Spark Plugs and a Firestone Extra Power Battery with your new All-Rubber Separator. Not a Spark Plug failed and the Battery required no service of any kind.

If every car owner knew what my Firestone tires went through they would appreciate what that made Firestone tires safe from blowouts. This is the toughest run I have ever made in my 25 years of breaking speed records.

Sincerely yours,
Ab Jenkins

1 HOME IN 10 HAS ADEQUATE LIGHT

AFTER sundown only one home in ten has light sufficient to help vision instead of hurting the eyes. That is a strong statement but it is true.

Would you like to know for sure if your home is properly lighted at night? This is what you should do about it:
1. Have a Sight Meter test made of the lighting in your home. 2. Have enough light in enough places—25 to 100 footcandles. 3. Have diffused light without glare. 4. Ask your local dealer to help you or call on this company.
Remember this, the difference in cost between good light and poor light is very small. Good lighting pays for itself when it saves eyesight and preserves health.

AUTO TAX CLEARANCE IS NECESSARY

Under the new law governing payment of property taxes in the State of California, it is necessary for the car owner to present his 1934 white certificate of registration to the local tax collector for clearance endorsement before application for 1933 license plates can be accepted or any transfer recorded covering the sale of an automobile, advises the National Automobile club.

On all unsecured property involving the ownership of an automobile it is necessary for all taxes levied against such a vehicle in the county, city or municipality for the current fiscal year and any delinquent taxes for the year of 1933 be paid in full before it is possible to secure such clearance endorsement from the tax collector.

For those who have recently received a tax assessment notice and have not as yet paid this tax, it is possible to mail in their statement together with personal check and certificate of registration. By enclosing a stamped, self addressed envelope the return of the receipt and validated certificate will be expedited. When personal check is submitted a ten-day delay is necessary to insure clearance of check before the transaction is completed. This delay also applies to those appearing in person at the Hall of Justice.

WEEKLY SCOUT NOTES; TROOP 86 CARMEL

First meeting of Fall was Friday evening September 7 with 20 Scouts present. In this number were two new scouts: Larry MacLaren and Frank Ross. Larry MacLaren is a recent arrival from Salinas and comes to the troop for his first work in Scouting. Frank Ross is transferring from the Susanville troop.

Several new plans are underway to make this the best year yet for troop 86. Scoutmaster John Neikirk announced a Father and Son banquet for the near future. Special attention is to be given to the daily good turns. The best one reported for each week will be reported to the papers.

The first meeting was a fun meeting. After the business was over, all went to the beach and played beach with their flash lights.

USE UNIFORM TIRES

Tires used on the front wheels should be of the same make and tread and have the same number of plies, according to the Emergency Road service of the California State Automobile association. If the weight of tread varies to any extent between the two front tires, steering trouble, shimmying and other difficulties may be experienced.

SCOUT TROOPS HAVE INTERESTING MEETING

The Carmel Scout Troop committee met Friday noon to discuss plans for the coming year. The meeting was opened by Hurd Comstock, acting in the absence of Chairman Herman S. Crossman. Al Young, field executive outlined plans of procedure in securing support for scout activities. Scoutmaster John Neikirk stated that the local troops had rendered active assistance to the community during the Serra Pageant and the Forest Theatre Fair. Skipper Martin J. Peterson told of the interest of the Sea Scouts in constructing a sea-going craft which would soon be ready for launching. The fine work of Bernard Rowntree in soliciting funds for this year's program received the commendation of the executive committee. Many points were presented relative to the Scout program but decision was delayed pending the return of the Committee Chairman, H. L. Crossman. Scout Troop Committee members Everett Smith, Otto W. Bardarson, Melvin Dorsett, Hurd Comstock and Louis Levinson were present. Scoutmasters John Neikirk, Ernie Perkins and Skipper Martin Peterson reported on troop activities. Field executive, Al Young, expressed pleasure over the activities of the local troops and the program of Americanization advanced by the Troop Committeeman.

P. G. & E. ASKS FOR WINTER SCHEDULE

Approval of a temporary schedule for winter irrigation from October 1, 1934 to April 1, 1935, is sought by Pacific Gas and Electric company and San Joaquin Light and Power Corporation from the California Railroad commission in filings made on Wednesday, September 5th. The rate is similar to the regular agricultural schedules but as service is restricted to the six winter months, requires payment for only the energy actually used and has no minimum charge. It will apply to agricultural pumping plants used for irrigation purposes to which service was terminated prior to October 1, 1934.

According to company representatives the rates if approved will be of substantial benefit to many consumers who are not now operating their plants but who hope to do so during the coming winter.

WATCH OUT FOR CHILDREN ON THE HIGHWAYS

More than 3,700 children were struck down and killed by automobiles in the United States last year, reports the Public Safety Department of the National Automobile club. Five hundred youngsters were killed as occupants of cars in collisions. Can there be any greater plea for more caution in driving? Especially now that most schools are in session and greater numbers of children are crossing streets and highways daily.

Many drivers seem to forget that in residential districts, especially, children may dart into the street at any moment. Many parents do not seem to be aware of the fact that young children need to be warned constantly of the hazards of the highways.

LUGS WILL WORK LOOSE

These mysterious squeaks and knocks that occur when turning corners or traveling over a rough road very frequently are no more than looseness in the lugs that hold the rims on the wheels. They work loose and periodic inspection will pay. They permit side to side play of the tire, which means wear.

MANIFOLD LEAKS

Exhaust manifold gaskets that are constantly leaking exhaust gases, detected by a hissing sound can best be remedied by having the manifold tured up at a machine shop according to the Emergency Road service of the California State Automobile association. The manifold metal may become warped from changes in temperature and when this occurs there is uneven contact between it and the motor block. Under such conditions it is likely that the gasket will blow out at one of the high spots.

Mrs. Vera Peck Mills and Miss Glenna Peck have been enjoying a visit from their brother, J. L. Peck of Los Angeles.

VOTERS ATTENTION

The books are now open for registration. If you are not already registered, or if you wish to change your party registration you may do so until Sept. 27th. Any citizen who has lived in the state one year, in the county ninety days and in the precinct forty days may register. Any one who will be twenty-one years old by the time of the election,

November 6th is entitled to register.

Any one who did not vote at either the primary or general elections in 1930 or the primary last month must reregister.

Places of registration are: Stanford's Drug Store, Carmel. Triangle Realty Co., Carmel.

Signed: Monterey Peninsula League of Women Voters.

9:45 Church School.
11:00 Service of Worship, theme "Vital Living." Mr. Gordon Knoles will sing. Mr. Dorsett Monterey, but formerly of Carmel, there any short-cuts in the Building of Dependable Character? Such movements as "The Oxford Movement" will be discussed. The better methods will be presented.
6:30 - 8:30 Junior J.O.-Y and J.O.-Y Clubs at Community church.
7:00 - 8:00. The High School club at All Saints Parish House.

MRS. EUGENIA FULTON

DIED LAST SATURDAY

Mrs. Eugenia Foulds Fulton, for the past sixteen years a resident of California, passed away Saturday at the Peninsula Community hospital.
Surviving are her daughter, Mrs. Gertrude F. Tooker of Berkeley and a son, Lester B. Fulton of Chicago.

STORY ABOUT FAIR IS LEFT ON PROOF PRESS

The editor of Carmel Sun raked feeble brains last week to write a story on the village fair, so successfully staged by Lita Bathen and her hard working helpers for the benefit of the Forest Theatre the week-end before. When the paper was out, the story, all set up and ready to go, was found on the proof press. We're sorry.

The affair was well staged and everyone had a delightful time. The free shows were excellent and the side shows were clever. About \$500 was cleared for the organization, the exact amount to be determined at a meeting this evening.

FRANK WILD WITNESSES

BIG WAVES IN SOUTH

Frank Wild of Wild's Market in Del Monte avenue, east of Monterey, but formerly of Carmel, returned home Monday from a visit with relatives in Long Beach. Mr. Wild reports the interesting experience of having stood on the shore there and watched the huge waves, 35-foot high Thursday, tear away a part of the pier. The dance pavilion had been destroyed before he arrived there and he stated that the debris was being burned. He said the waves were peculiar in that they were not rough; the danger lying in their huge size and the volume of water.

ONCE FAMOUS BEAUTY

PASSES TO REWARD

Recalling the days when Marie Wells Hanna was well known in Carmel, she having been prominent here in about 1907, wife at that time of the brother of John Selba Hanna, old timers read with interest the account of her passing in New York City, September 10. The Chronicle gave the following details:

Mrs. Marie Wells Hanna, one of San Francisco's most famous society beauties of the "cotillion era," before the fire, died yesterday in New York.

Mrs. Hanna's death came after a lengthy illness. Although a native of San Francisco, she had lived in New York for many years. Word of her death was sent to San Francisco relatives by friends in New York.

She and her sister, Juanita, now Mrs. Arthur Hill Vincent of Biarritz France, were the reigning society beauties of San Francisco when famed Ned Greenway was a social leader.

Mrs. Vincent, upon receiving word in Biarritz of her sister's death, made immediate plans to leave for New York, according to word sent to her son, Charles Huse, San Francisco newspaper man.

NEW MARKER PLACED

IN MONDAY PROGRAM

Stressing importance of the Carmel-San Simeon link in the new coast highway, Senator E. H. Tickle presided at the colorful ceremony held Monday afternoon at 2:30 at the top of Carmel Hill, when the first highway marker was placed by officials of the California Automobile association.

This route will be known as No. 1, the numbering plan of the federal highways to be followed.

It was suggested at the meeting that the road will be open to the public within ten months.

Music was furnished by the 11th Cavalry band.

At the barbecue at Indian Village preceding the ceremonies, about 150 were in attendance. Several speeches were made by representatives of the peninsula cities and Salinas. A string sextette from the Monterey fire department, entertained with several selections.

CITY COUNCIL MEETS

NEXT MONDAY EVE

At the adjourned meeting of the city council next Wednesday evening it is hoped to have a report from the federal government as to funds available to be used in the construction of a city hall.

FOR RENT

For rent 2 rooms (bedrooms and living room) and garage. Together or separately. Rent reasonable. Box 1511, Carmel.

EPIC PEOPLE SPEAK TO LARGE CROWD

Sixty-five thousand Republicans wrote in the name of Upton Sinclair on their ballots in the August primaries. So the large crowd which filled the lecture room at Sunset school last Monday evening was told.

Charges were made by W. L. Overhulse, who was the first speaker on the program; that the Citizens Committee had been guilty of malicious political propaganda when they caused to be printed in the Monterey Herald before the August primaries a full page purporting to show that Upton Sinclair was connected with the Communist party.

Instead of forcing young people to secret meetings in attics or elsewhere, the EPIC people invite them to "come with us. We have a plan to end economic troubles," he explained.

Earnest Bixler followed Mr. Overhulse and informed the audience that headquarters in San Francisco were not at all alarmed over conditions in Carmel, they feeling that Sinclair would not even need the votes here.

Mr. Bixler stated that on August 30 a story appeared in the dailies, buried on inside pages, saying that Secretary of Agriculture Wallace approved the EPIC plan and considered it an integral part of the New Deal.

The speaker told of members of the club having received anonymous letters threatening to run them out of town and said the letters had been placed with the postal authorities who would soon find the writers and punish them.

Mr. Bixler made public demand that his name be removed from the list of members of the Citizens committee, charging they had violated their own by-laws and the laws of the cities and the federal government. The first by entering into a political contest, the last two by dropping bills from an airplane over Pacific Grove and Carmel.

We now destroy food and let people go hungry. Sinclair, proposes to raise food and feed the hungry and run the factories and clothe the people, Mr. Bixler told his listeners. He asked for objections to the plan.

Mr. Bixler said antagonism to the Communists had become a racket and charged that anyone who would pay the price could obtain any kind of a chart against anybody. He stated that he had inquired of the San Francisco police department as to whether any charts had been taken in raids on Communists' headquarters in that city and had been informed that none had been taken.

Miss Daniels gave a talk on the book, Elizabeth Dilling's Red Network. She stated that Mrs. Dilling was afraid that whatever was done by anyone might lead to something.

Speakers called for proof that Sinclair is a Communist and stated that if he is they want to know it. The meeting was attended by club members, members of the Citizens' Committee, Communists and just plain John Citizens.

JUDGE GIVES COUPLE

30 DAYS SUSPENDED

She hadn't been drunk for a long time, and didn't think she had ever been that drunk, so explained a young woman giving her name as Jean Hansen, who with her companion, Earl B. Hansen, appeared before Judge Wood Tuesday morning to answer to a complaint of drunk and disorderly. Chief of Police Gus Englund had taken the couple in to custody Monday afternoon and escorted them to Monterey to spend the night in jail.

Hansen said they were from Los Angeles and having heard of Carmel but never having seen the place they decided to drive over. In seeing the place they also saw two bottles of whisky in a store window. They purchased it and set about to consume it. Residents in the neighborhood of Fourth and San Carlos phoned the office of Mr. Englund and the arrest of the visitors followed.

Judge Wood gave the couple a sentence of thirty days in the county jail, which he suspended upon their eager promise to get out of the county and stay out.

Lew Earl McCreery, young son of Mr. and Mrs. P. A. McCreery, is spending this week with friends in Palo Alto.

HIGH SCHOOL P. T. A. PLANS NICE MEETING

Carmel members of the P. T. A. of Monterey Union high, are looking forward to the meeting of September 20 for which a most interesting program has been prepared.

The association which will convene at 8 p. m. in the high school cafeteria, will be addressed by Supt. J. R. McKillop who will speak on the aims for the high school for the coming year.

L. E. Wormley will discuss the relation of the parents to the education plan.

A reception to the teachers will follow and the guests will visit the library to see the exhibition of new books.

CATTLE FORM CIRCLE

TO PROTECT CALVES

An interesting nature study was provided this week in the Big Sur district when a mountain lion began to make nightly visits to the neighborhood of the stone filling station just across the bridge several miles down the coast.

Grazing cattle in that neighborhood formed a circle and in the center they herded the calves.

The lion entered cabins, walked on the roofs of others and in general made itself unwelcome. Residents are on the lookout for the animal every minute, day and night and those who have been sleeping on open porches have moved indoors.

Mr. and Mrs. Fred Leidig, accompanied by Mrs. R. G. Leidig, left the last of the week for Oregon to attend the wedding of their son, Glen, who is marrying an Oregon girl.

GUILD WHIST PARTY

VERY MUCH ENJOYED

Many beautiful prizes were awarded at the party given by the Old Mission Guild Tuesday night at Serra Crespi hall. After the games, delightful refreshments were served. Prizes were won by:

Mrs. Lowell, Martha Schoetz, M. Gosker, Claire Kerrigan, E. Grennan, Louise Reak, A. Eddie, Stella Guichard, William Schoetz, Joseph Machado, E. Frymire, M. Brady, Jeanne Pierenne, and J. A. Bunch. Consolation went to Mrs. Joseph Machado.

CHURCH GUILD ENJOYS

EVENING OF CARDS

Eleven tables were in play last evening when the ladies of the Community church met in the social rooms for a card party.

Delicious refreshments of gingerbread and whipped cream with coffee were served.

The guild plans to make the card party a monthly affair.

Mrs. Louis Hasty is slowly recovering from a bad attack of influenza. Her son, Henry Hasty, continues ill at his home.
